SIL 2012 Gran Via de Fira,
Barcelona, June 5th-7th.

The International Logistics and Material Handling Exhibition SIL is held at Barcelona's Gran Via de Fira. It is an exhibition which, due to strong sector participation continues to be an annual event.

This event is regarded as the leading materials handling and logistics exhibition in Iberia and as an international point of reference where all logistics sectors are represented.

The fair will provide excellent opportunity for making new contacts and compiling business records and therefore shouldn't be missed. Over the years, Barcelona has become the annual logistics meeting point and an effective and profitable tool for doing business and making contacts in a professional, international and friendly climate that is difficult to match.
